MEMORANDUM FOR THE RECORD

1. On 24 June Messrs. [] Brugioni, and [] met to discuss continued effort in the photomosaic project and proposed dissemination of the end product. At present, mosaics on all KH-4 missions have been mounted on WAC sheets by TID except for 1006-1 and 1006-2 for which mosaics are not yet available and CSD has one mission to relabel; a total of 1800 sheets remain to be shot on minicard film and this should all be completed by about 1 July.

50X1

2. At present, all original photomosaic sheets are stored in CSD. It was agreed that these should be stored in ICB/PSD in WAC chart order, but they should be treated similar to the original film--only used in emergency circumstances.

3. It was also agreed that:

a. Customer service would be provided from minicard prints, minicard film (16mm rolls) or 70mm film in rolls.

b. PSD will record the photomosaic sheets on 70mm film. (To arrange these in WAC chart order and by date and to copy all will require about 30 days.)

c. The Assistant for Operations will canvass the community to determine its requirements for either minicard film chips, minicard film in roll form or 70mm film in rolls.

TCS-2730-64

d. Hard copy minicard prints of about 6,000 photomosaic sheets would be provided for CIA/PID, PAQ, DIA (2 copies as requested by Capt. Gulledge) and CIA. (The Assistant for Operations will coordinate this requirement.)

e. The control numbers assigned to the minicards would be used as the control numbers when recording the photomosaic sheets on 70mm film.

f. Any dissemination of the photomosaics sheets must be accompanied by a machine tabulation listing all of the sheets included therein by control number. This will be run on 4-part paper. The original and one copy will be forwarded with the receipt to the requester and another copy will be retained in suspense by Registry.

Assistant for Operations,
NPIC
